ID Test	Description	Input Type	Pre-Requisites	Steps	Expected Result	Actual Results	Status	Notes/ Recommendation
A.1	**Module: Login**							
A.1.1	**Login with Valid Data**	email: testkandidatqa@gmail.com password: knqbbqm	1. Device already connected to the internet 2. Link opened: https://staging-cms.maxxitani.id/auth/login	1. Browse: https://staging-cms.maxxitani.id/auth/login 2. Input email and password field with valid data 3. Click 'Log In' button.	1. Login successful 2. Website directing to the dashboard page	**As Expected**	**Accepted**	-
	Test Result (Screenshot)	 					
A.1.2	**Login with Invalid Data**	**<u>conditon (a):</u>** email: kandidatqa@gmail.com password: knqbbqm **<u>condition (b):</u>** email: testkandidatqa@gmail.com password: knqbbqm **<u>condition (c):</u>** email: testkandidatqa@email password: knqbbqm	1. Device already connected to the internet 2. Link opened: https://staging-cms.maxxitani.id/auth/login	1. Browse: https://staging-cms.maxxitani.id/auth/login 2. Input email and password field with invalid data with condition (a) & (b) 3. Click 'Log In' button.	1. Login unsuccessful 2. Website directing to the login page 3. Website shows pop up/alert that informs the email/password is invalid	**As Expected, but for condition (b) the alert isn't with specific information.**	**Accepted With Note**	The alert when password is invalid should be more specific, example: "Login gagal karena Bad request: Password Tidak Valid"

	Test Result (Screenshot)	**condition (a):**  **condition (b):**  **condition (c):** 						
A.1.3	**Login with Empty Field**	**conditon (a):** email field left empty password: knqbbqm **condition (b):** password field left empty **condition (c):** email & password field left empty	1. Device already connected to the internet 2. Link opened: https://staging-cms.maxxitani.id/auth/login	1. Browse: https://staging-cms.maxxitani.id/auth/login 2. Input email and password field with invalid data with condition (a), (b), (c) 3. Click 'Log In' button.	1. Login unsuccessful 2. Website directing to the login page 3. Website shows pop up/alert that informs the email/password shouldn't be empty	**As Expected, also the Log In button can't be clicked while the field still empty**	**Accepted**	-

	Test Result (Screenshot)	**condition (a):**  **condition (c):** 	**condition (b):** 					
A.2	**Module: Farmer Menu**							
A.2.1	**Feature: Access Farmer Menu**							
A.2.1.1	**Access Farmer Menu & Sub-Menu of Farmer Menu**		1. Device already connected to the internet 2. User login successful 3. Link opened: https://staging-cms.maxxitani.id/dashboard	1. Hover the 'Petani' Menu on the left side	While hover the 'Petani' Menu, website also shows the sub-menu of 'Petani' menu	**As Expected**	**Accepted**	-

	Test Result (Screenshot)							
A.2.1.2	**Access Verified Farmer Sub Menu**		1. Device already connected to the internet 2. User login successful 3. Link opened: https://staging-cms.maxxitani.id/dashboard	1. Hover the 'Petani' Menu on the left side 2. Click sub-menu 'Terverifikasi' Link opened: https://staging-cms.maxxitani.id/farmer/list/active	Shows a table that contains data of all verified farmers successfully.	**As Expected**	**Accepted**	-
	Test Result (Screenshot)							
A.2.1.3	**Access In Waiting/Pending Farmer Sub Menu**		1. Device already connected to the internet 2. User login successful 3. Link opened: https://staging-cms.maxxitani.id/dashboard	1. Hover the 'Petani' Menu on the left side 2. Click sub-menu 'Sedang Menunggu' Link opened: https://staging-cms.maxxitani.id/farmer/list/pending	Shows a table that contains data of all waiting/pending farmers successfully.	**As Expected**	**Accepted**	-

	Test Result (Screenshot)							
A.2.1.4	**Access Rejected Farmer Sub Menu**		1. Device already connected to the internet 2. User login successful 3. Link opened: https://staging-cms.maxxitani.id/dashboard	1. Hover the 'Petani' Menu on the left side 2. Click sub-menu 'Ditolak' Link opened: https://staging-cms.maxxitani.id/farmer/list/rejected	Shows a table that contains data of all rejected farmers successfully.	**As Expected**	**Accepted**	-
	Test Result (Screenshot)							
A.2.1.5	**Access Create New Farmer Sub-Menu**		1. Device already connected to the internet 2. User login successful 3. Link opened: https://staging-cms.maxxitani.id/dashboard	1. Hover the 'Petani' Menu on the left side 2. Click sub-menu 'Tambah Baru' Link opened: https://staging-cms.maxxitani.id/farmer/action/new	Shows the form fields to create new farmer successfully.	**As Expected**	**Accepted**	-

	Test Result (Screenshot)								
A.2.2	**Feature: Create Farmer**							

A.2.2.1	**Create Farmer with Valid Data**	**<u>condition (a):</u>** **mitra: bram** **nama petani: salsabila** date of birth: 12/07/2000 no hp: 0812345678 jenis kelamin: perempuan provinsi: jawa timur kota: malang kecamatan: kedungkandang kelurahan: bumiayu kode pos: 65135 alamat lengkap: PT Salsabila **no ktp: 1098765432111111** foto ktp: farmer.jpeg swafoto: selfie.jpeg nama bank: bank mandiri **no rekening: 1234567891011** **nama pemilik akun bank: salsabila**	1.
